

## A book of Rhyme ! (1977).

*Being , (perhaps more than most people ,) a man  
Of moods, ( man know thyself) , much of the  
Material in this book is the result of the  
Prevailing mood at the time of writing.  
However, a perusal of the contents will no  
Doubt give the reader some indication of the  
Manner of man who penned the words.*

====        =====        =====        =====

*A considerable amount of thought, and time has  
been spent in the preparation of this book, which  
I value as perhaps my only claim to recognition, or  
Should I say notoriety ? I am well aware that  
Some of my verses will offend, politically, and perhaps  
In a nationalistic as well. For this I make  
no apology, nor do I care tuppence; my life and  
my thoughts are my own, but if this book is  
on loan to you, for the reason stated above, I  
would appreciate its early return to me. Thank You.*
